# Alarm Beacon (AP9324) Installation Instructions

⚠ **WARNING:** Do not use this device for any purpose other than product protection and data center monitoring.

⚠ **Caution:** To avoid damage to the beacon, make sure you connect the beacon to a **Beacon** port on a compatible APC product. See your product documentation for details.

🛈 **Note:** You can extend the length of the beacon cable up to 30.5 m (100 ft) using an RJ-45 coupling and standard CAT-5 cabling.
